HW-113

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Re: Harbor Island Superfund Site

Dear Sir or Madam:

The United States Environmental Protection Agency (EPA) has documented the release or threatened release of hazardous substances at the above referenced site. As a result, the site is now listed on the National Priorities List pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Section 9601 et seq., as amended by the Superfund Amendments and Reauthorization Act of 1986 (to be herein referenced as CERCLA). The EPA is considering spending public funds to further investigate the contamination at the site and take corrective action for the control of hazardous substances at the site, unless it is determined that such action will be conducted properly by a responsible party.

Responsible parties under CERCLA include the current and past owners and operators of the site, persons who currently lease property at the site or have leased property in the past, and persons who generated the substances or were involved in the transport, treatment, or disposal of them at the site. The EPA has information indicating that you or your company may be a responsible party for the Harbor Island Superfund site.

Under CERCLA, responsible parties may be liable for all monies including interest thereon expended by the government to take necessary corrective action at the site including investigation, planning, and cleanup of the site. Note that use of the word 'site' in this letter refers to the term 'facility' as broadly defined in CERCLA.

Based on EPA's preliminary findings, persons and companies to receive this letter have been identified as potentially responsible parties (PRPs). Inclusion on this list indicates that you or your company may be a responsible party. This list does not constitute a final determination

concerning the liability of any party for the hazard or contamination at the site in question. Enclosure 1 indicates the King County property tax number or other geographic identifier for each parcel you/your company has owned, leased or operated, now or in the past. The entire list of PRPs is enclosed for your information (see Enclosure 2), and will continue to be up-dated as EPA obtains new information.

If you received a similar letter dated July 31, 1986, November 6, 1986, December 18, 1986, or March 20, 1987, this letter indicates that EPA has identified additional properties for which you or your company may be a potentially responsible party (PRP). Please review Enclosure 1 carefully.

EPA and the State Department of Ecology (Ecology) encourage PRPs to perform or participate in the investigation and/or clean-up of the site. The PRPs may participate individually or as a group. In the event that PRPs elect not to participate, each PRP may be liable for site investigation, site clean-up, and for damages to natural resources. These liabilities are joint, strict, and several for all PRPs.

At this time, EPA is seeking to obtain certain information from you. Under the provisions of federal law, specifically Section 104 of CERCLA, 42 U.S.C. 9604, and Section 3007 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6927, as amended by the Solid Waste Disposal Act Amendments of 1980, the Administrator of the Environmental Protection Agency has the authority to require any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled hazardous wastes and substances to furnish information related to such wastes and substances.

EPA is also seeking information from you pursuant to Section 9005 of RCRA, 42 U.S.C. 6991(d). This section allows EPA to request information from owners or operators of underground storage tanks as that term is defined in Section 9001(1) of RCRA. Under regulations proposed by EPA on April 17, 1987, an underground storage tank means any one or combination of tanks (including underground pipes connected thereto) that is used to contain an accumulation of regulated substances, and the volume of which (including the volume of underground pipes connected thereto) is 10 percent or more beneath the surface of the ground. "Regulated substances" are defined as either petroleum or substances defined as hazardous under CERCLA (see 52 F.R. 12662).

Finally, this information is sought under Section 308 of the Clean Water Act, 33 U.S.C. §1318. Under this Section, EPA may require the submittal of information in order to carry out Section 311 of the Clean Water Act, 33 U.S.C. §1321. The purpose of Section 311 is to eliminate "discharges of oil or hazardous substances into or upon the navigable waters of the United States, adjoining shorelines, or into or upon the waters of the contiguous zone, or in connection with activities under the Outer Continental Shelf Lands Act or the Deepwater Port Act of 1974, or which may affect natural resources belonging to, appertaining to, or under the exclusive management authority of the United States (including resources under the Magnuson Fishery Conservation and Management Act)."

Pursuant to these statutory provisions, you are hereby requested to respond to the following items for you, your company, and any subsidiary operations on each of the parcels identified above:

1. What are the generic names and chemical character of the hazardous substances, as defined under Section 101(14) of CERCLA, that you generate, store, treat, transport, dispose or otherwise handle or have handled at the site? Briefly describe the activities and operations that were carried out by you or your company which involved these hazardous substances.
2. If you do not believe hazardous substances were handled at the site, please briefly describe the activities and operations that were carried out by you or your company.
3. For each hazardous substance identified above, please describe how the substance was handled, when, and the total quantity in weight or volume (estimate if quantity not available).
4. Where was this material stored, and where was it disposed of?
5. What arrangements (if any) were made to transport the hazardous substances away from the site? Who was the transporter of the hazardous substances, and what is his current/previous address?
6. Provide all information you have regarding spills of hazardous substances and/or petroleum products on or around the site. This should include the generic name and chemical constituents of the material(s) spilled, the quantity of material spilled, clean-up measures taken, the cause for the spill and any other related information.
7. Describe all environmental investigations that have taken place on or around your property/facility. This includes investigations of the physical and chemical characteristics of soil, surface water, sediments, air, and groundwater. This also includes historical evaluations of potential/known contamination. Provide all relevant information including, but not limited to, study design, workplans, quality assurance procedures, sampling procedures, well logs, study results, and data analyses. Raw data need not be provided at this time; data summaries will suffice.
8. Provide all information on all wells on site including the number, associated well logs, date of installation, purpose of installation, and whether the well(s) are being used currently and for what purpose.
9. Provide information regarding all underground storage tanks (see definition above) at the properties owned or leased by you or your company. Specifically, provide a list describing the location, age, construction, contents, and leak detection system or other monitoring system for each tank. Provide a map showing the location of each tank and associated pipelines. Indicate if there are any underground storage tanks no longer in use on the properties.

10. Provide copies of all insurance policies that may provide liability coverage for damages resulting from releases of hazardous substances and/or hazardous wastes. This includes policies that are in effect as well as those effective when hazardous substances were released in the past.
11. Provide a list of all persons or companies who leased or sub-leased the properties indicated on Enclosure 1.

Your written answers to these questions must be sent to EPA within ninety (90) calendar days of your receipt of this letter. Your response should include all information you have for the site during the time you or your company owned, operated, or leased the property.

Please answer all questions to the best of your knowledge. If you or your company owned, operated, or leased more than one parcel of land, be specific in your responses as to which parcels you are referring to.

Under Section 3008 of RCRA, 42 U.S.C. 6928, failure to comply with this request may result in an order requiring compliance or a civil action for appropriate relief. Section 3008 of RCRA also provides for civil penalties. Pursuant to Section 103 of CERCLA, it is unlawful for any person knowingly to destroy, mutilate, erase, dispose of, conceal, or otherwise render unavailable or unreadable, or falsify any of the above records. Section 309 of the Clean Water Act, 33 U.S.C. 1319 provides for penalties of up to \$10,000 per day for failure to comply with this request.

EPA recognizes that this information request is broad in scope. If the information you possess is voluminous, you may respond within the 90 day period as to the availability of all related records, and provide a written description of the type of information available. Specifically, describe the types of records that were maintained by you or your company with regard to the above including the date of the records, the author of the records, the current location of the records, and their current custodian. EPA also requests that arrangements be made to allow designated EPA employees, Department of Ecology employees, and their contractors to review all such documents.

EPA regulations governing confidentiality of business information are set forth in Part 2, Subpart B of Title 40 of the Code of Federal Regulations Federal Register 36902-36924 (September 1, 1976), as amended by 43 FR 3997 (September 8, 1978), 44 FR 17673 (March 23, 1979), 43 FR 11270 (March 17, 1983), and 50 FR 51663 (December 18, 1985). For any portion of the information submitted which is entitled to confidential treatment, please assert a confidentiality claim in accordance with 40 CFR §2.203(b). If EPA determines that the information so designated meets the criteria set forth in 40 CFR §2.200, the information will be disclosed only to the extent, and by means of, the procedures specified in 40 CFR Part 2, Subpart B. EPA will construe the failure to furnish a confidentiality claim with your response to this letter as a waiver of that claim, and information may be made available to the public by EPA without further notice.

Note that all information (including information claimed confidential) will be disclosed to an EPA contractor for technical review and evaluation under contract #68-01-7351, Project No. 05-A005-46, Work Assignment #46.

The prime contractor is Jacobs Engineering Group, Incorporated, and the subcontractor is Tetra Tech, Incorporated. This disclosure is deemed necessary by EPA to carry out the requirements of CERCLA. This disclosure will be carried out in accordance with procedures defined in 40 CFR 2.2036(b). Please indicate in your response if you have a concern over such release of information. All other releases of information will also follow the procedures defined in 40 CFR Part 2, Subpart B.

Finally, you should be aware that the Washington Department of Ecology (Ecology) is working under a Cooperative Agreement with EPA to address the Harbor Island Superfund site. State law requires that Ecology send letters similar to this one to each PRP notifying each of potential liability. You are likely to receive such a letter within a few weeks.

Please respond to EPA within the time frame indicated above. Your written response should be sent to Lori Cohen, U.S. Environmental Protection Agency, Superfund Branch, 1200 Sixth Avenue, HW-113, Seattle, Washington 98101. Please direct EPA policy and technical questions to Lori Cohen at (206) 442-2712, and legal questions to Deborah Gates at (206) 442-1218.

I hope you will give this matter your immediate attention.

Sincerely,

Robert S. Burd, Director  
Water Division

Sincerely,

Charles E. Findley, Director  
Hazardous Waste Division

Enclosures

Postmark or Date

AUG 26 1987

**STICK POSTAGE STAMPS TO ARTICLE TO COVER FIRST CLASS POSTAGE,  
CERTIFIED MAIL FEE, AND CHARGES FOR ANY SELECTED OPTIONAL SERVICES. (see front)**

1. If you want this receipt postmarked, stick the gummed stub on the left portion of the address side of the article leaving the receipt attached and present the article at a post office service window or hand it to your rural carrier. (no extra charge)
2. If you do not want this receipt postmarked, stick the gummed stub on the left portion of the address side of the article, date, detach and retain the receipt, and mail the article.
3. If you want a return receipt, write the certified-mail number and your name and address on a return receipt card, Form 3811, and attach it to the front of the article by means of the gummed ends if space permits. Otherwise, affix to back of article. Endorse front of article **RETURN RECEIPT REQUESTED** adjacent to the number.
4. If you want delivery restricted to the addressee, or to an authorized agent of the addressee, endorse **RESTRICTED DELIVERY** on the front of the article.
5. Enter fees for the services requested in the appropriate spaces on the front of this receipt. If return receipt is requested, check the applicable blocks in Item 1 of Form 3811.
6. Save this receipt and present it if you make inquiry.

UNITED STATES POSTAL SERVICE  
OFFICIAL BUSINESS

SENDER INSTRUCTIONS

Print your name, address, and ZIP Code in the space below.

- Complete items 1, 2, 3, and 4 on the reverse.
- Attach to front of article if space permits, otherwise affix to back of article.
- Endorse article "Return Receipt Requested" adjacent to number.

PENALTY FOR PRIVATE  
USE, \$300

RETURN  
TO

SEP 03 1987

Superfund Branch

Print Sender's name, address, and ZIP Code in the space below.

Environmental Protection Agency  
Superfund Branch, HW-113  
1200 6th Ave.  
Seattle, WA 98101  
ATTN L. Cohen

 **SENDER:** Complete items 1 and 2 when additional services are desired, and complete items 3 and 4.

Put your address in the "RETURN TO" space on the reverse side. Failure to do this will prevent this card from being returned to you. The return receipt fee will provide you the name of the person delivered to and the date of delivery. For additional fees the following services are available. Consult postmaster for fees and check box(es) for additional service(s) requested.

1. ☐ Show to whom delivered, date, and addressee's address.      2. ☐ Restricted Delivery.

3. Article Addressed to:

SOCONY MOBIL OIL COMPANY, INC.  
612 SOUTH FLOWER STREET  
LOS ANGELES CA 90017

4. Article Number

P492 761 851

Type of Service:

- ☐ Registered      ☐ Insured  
☒ Certified      ☐ COD  
☐ Express Mail

Always obtain signature of addressee or agent and DATE DELIVERED.

5. Signature — Addressee

X

6. Signature — Agent

X

7. Date of Delivery

AUG 3 1 1987

8. Addressee's Address (*ONLY if requested and fee paid*)
